Subject: Bridgeport Clinic Petition
Attachments: bridgeport-needs-our-clinic.pdf

Dear Mono County Board of Supervisors,

I am attaching a petition that is still going with comments on the need for a local clinic in Bridgeport. This is a very important part of our community. It is not only necessary for our locals, but our families and guests. Tourism is an essential part to our community and without the availability of a local clinic we feel that many adventures that our guests take maybe limited by the availability of healthcare. We as a community and as visitors of Bridgeport ask you to please continue the search for a health care professional to run our clinic so we can keep the doors open and provide services that are so necessary for our community.

Thank you

Brianna Brown and the Community and visitors of Bridgeport

Bridgeport Needs Our Clinic

About this petition

The County Board Of Supervisors needs to hear our voice about the importance of our local clinic. We need to join together and be heard that we need our clinic for our locals, for our visitors and for our families. We need the county to continue their pursuit in search of a new health care professional to run our clinic. By signing this petition you are sending your voice to tell the board we need our clinic.

Comments:
-
69. Name: Kimberly Bunn on 2017-02-03 15:26:47
Comments: This is a service that is crucial if we want to see our town grow and flourish. To promote growth we need to meet people's basic needs, which includes health care. The letter each of us received from Mammoth Hospital was very upsetting. Instead of taking the time to address the health care needs of the residents of our town such as expanding services to get more patients, they just closed their doors on us and left the County hanging high and dry for inmate care. It was easier. I for one will never step foot in Mammoth Hospital again.

-
232. Name: Kathy swann on 2017-02-04 17:26:32
Comments: We need this clinic it is more closer to a lot of us in the area, for the elderly and the ones who can not always afford to travel so far.
-
233. Name: Laura Pemberton-kellogg on 2017-02-04 18:01:10
Comments: Please keep our little clinic going!!! It would be a detriment to our small town! With all of the vacationers and passerby people, there would be nowhere for them to go, especially in an emergency matter! The elderly that can't travel very far will no longer have a safe place to go (that would be the ultimate heart break! These people get comfortable and feel safe with their little clinic, they are the most helpless along with all the children) our beautiful small town could not handle the deprivation that having no clinic would cause!!! Thank you in advance for reading all of these petitions!!!

Subject: Health Clinic

To Mono County Board of Supervisors:

I am writing this letter in regards to this wonderful town I now live in called Bridgeport.

This is my home, and I plan to live here the rest of my life. When I moved here, just like most retirees, I had to consider a few things. The biggest and most important consideration was "Is there any medical facilities near by" and YES there was!

Everything was put in place.

This is the perfect place to live!

My husband and I are very happy living here.

It is our dream come true and we soon found out that there is a community of people here, that every one of them feel the same way. We are involved and invested, financially and emotionally in this great town, and we want to see it thrive!

I can't express how completely disappointed and confused we were to learn that our clinic was closing!

How could a town that is so far from any kind of medical help be closing, not to mention there is no plans for a replacement for the void that is now created! I am writing this letter, not just to represent my family, but also to compel you to see the importance of having a medical facility for all those people who live here that rely on the clinic for minor medical issues etc. not to mention the thousands of people who come here every year, camping, hiking, and logging. For example, last summer we were told that the clinic would be open 3 days a week and then 2 days a week.

A family from another country was here on vacation, they stopped their car and asked us where they could go for medical help because the health clinic was closed and their son had a fish hook in his hand, they ask us " where can we go, we have an emergency? We told them that there is a hospital in Mammoth. In a frantic voice they said "where's Mammoth" they never heard of Mammoth, we explained where it was, they looked confused and sadly we watched them drive away.

Please, don't let too much time go by without the replacement of a much needed medical facility.

Thank you for reading my concerns and I urge you to see how important this issue is!

Jeff & Donna Simensen

Good Morning Ms. Chapman:

Please see my attached letter to you, and the Mono County Supervisors, and the county clerk, via this copy.

I join the community and public in requesting yours and the board's help.

Thank you and the entire board of the supervisors for your immediate attention to remedy this serious matter.

Please let me know if I may be of any assistance.

Re: Save the Bridgeport Clinic/Medical Services

Dear Ms. Chapman:

Please do whatever is in your power to help keep the Bridgeport Medical Clinic/Services available to the community and the public.

Basic services are a must to keep tourism thriving as many would avoid an area known to have limited medical services already, but to completely eliminate the basic services in this area all together, would surely negatively impact seasonal travelers, which is the heart and soul of the entire area. Also, the many seasonal aging "snowbirds" who return to the area annually may now have to reconsider returning to an area with such limited or non-existent medical care/service options.

Further, the impact on an economically challenged area by removing these services all together could very well be the end of those who may depend upon these services for life-sustaining aid/assistance. Specifically senior citizens and the disabled, and more.

Please consider what options you may have available to maintain and keep this well-needed clinic available to all. It is my hope that you can coordinate and manage the required resources needed to succeed with this large task.

If I may be of any assistance in any way, please do not hesitate to contact me. It is my hope and prayer that you can accomplish the best outcome for this precious community.
Thank you of your kind consideration.

Sincerely,

JAYNE MCINTYRE

Subject: Bridgeport Medical Facility

Dear Mono County Board of Supervisors,

The Bridgeport Health Clinic closed leaving the town of Bridgeport without a doctor.

Discounting inclement weather as a barrier, the nearest Medical Facility is now an hour away.

This closure is a hardship on the residents as well as the thousands of visitors every year that enjoy the wonderful and historic town.

Without a doubt, Bridgeport is in great need of a Medical facility. This is an issue of vital importance and great concern to everybody.

Reply-To: "dbabicky@yahoo.com" <dbabicky@yahoo.com>

As second hand home owners, we just learned of the possibility of not having a doctor and health clinic in Bridgeport. My wife and I have been visiting Bridgeport since the early 1970's. Originally there was a hospital, then a clinic - and now, nothing. In 2005 we purchased a second hand home at 339 S Kingsley Street.

If the town is to exist as a delightful, historical, somewhat out of the way home for residents and tourists, it will need a staffed clinic. There is Bodie Park, fishing in Walker River (and elsewhere), horseback riding at the Hunewil Ranch, hiking the surrounding mountains, the 4th of July parade, skiing only a half an hour away at June Lake, Yosemite Park, the marine base, the local hot springs, the museum, the Indian colony, Mono Lake etc.

There is physical danger in all of these activities, i.e. snake bites, drownings, heart attacks, broken limbs, car accidents/running into deer, altercations, births... There isn't even a pharmacy in town to prescribe medications.

Ideally, the hospital in Toiyabe will take control. If so, why can't their expenses be augmented with some continuing support from Mammoth? Also, wouldn't it be possible to adjust some of the property taxes paid by us in Bridgeport to defray a portion of the hospital costs. Furthermore, would it be possible to attract medical student interns to take some of their residency requirements in such an attractive area?

Sincerely,
Jeffrey and Christiane Wiese

February 7, 2017

How can say this easily, we are in dire need of a medical facility here in Bridgeport. For the 13 years I have lived here, we have seen a gentle rotation of doctors. To further hamper the situation it is now winter and travel is more dangerous and costly. We now have to travel to at least Walker to visit the clinic in Toibe, either that or to Mammoth, the later an hour away. We need, as a community need to put our heads together and come up with a solution to end this dilemma. I understand that money is an issue, couldn't we share a doctor from Toibe on a permanent basis. Or can we go out and look for a doctor who would like to move here, I understand that Bill Todd would like to come back, all it would take is a phone call and an invitation.

We need to remedy this pretty quickly before the tourist season comes. People aren't going to want to come here if there is no medical service here.....Think of the cost of 10,000 less people here at fourth of July weekend. That's a hefty fine for no medical care, honestly. People won't come here.

So, in closing, we all know that the Board of Supervisors has the power to make something happen. Please do this for our community.

Sincerely,

Nancy Love

Resident

To: Stacy Corless; Larry Johnston; Fred Stump; Bob Gardner; John Peters
Cc: Tony Dublino; Shannon Kendall
Subject: Comments on Agenda Item 9C: "Conway Ranch RFP- Direction to Staff Regarding Scheduling and Process" at Tuesday's BOS Meeting

Supervisors Corless, Johnston, Stump, Gardner and Peters:

I am writing to comment on Agenda Item 9C "Conway Ranch Grazing RFP – Direction to Staff Regarding Scheduling and Process" that will be considered at Tuesday's BOS meeting. I have a longstanding interest in how Mono County manages its Conway and Mattly Ranch properties, and I am very concerned regarding the continuation of sheep grazing on these properties. Grazing the Ranch's wet meadows is essential for maintaining the diversity of plant species found in this unique habitat remaining in the Mono Basin.

I strongly support the BOS approving, with certain modifications, the first option listed in Tony Dublino's February 7th memorandum included in Agenda Item 9C. The USFWS and/or CADFW should present their position regarding the Sierra Bighorn sheep at a separate meeting, presumably at the February 21 meeting as discussed previously. I recommend that the BOS then schedule a Workshop devoted to a discussion of the Conway/Mattly Ranch grazing issue as previously suggested by Supervisor Johnston, at a future date. This public Workshop would be an appropriate venue for Tony to present the responses to the County's "Request for Letters of Interest for Grazing Activities on Conway and Mattly Ranches". It would also allow discussion among the interested parties with differing opinions on the grazing issue, something that has not been possible at previous BOS meetings dealing with this issue. The issuance of an RFP for proposal for grazing on Conway/Mattly Ranches should be considered as an Agenda item at a subsequent BOS meeting after the Supervisors and County Staff have had time to reflect on the discussions at the Workshop.

I sense that the BOS would like to see the historic sheep grazing on Conway and Mattly Ranches continue. However I'm aware that there are concerns about the County becoming involved in a prolonged and expensive legal battle with opponents such as the Center for Biological Diversity, the USFWS and the CADFW. I suggest that the BOS examine the possibility of seeking pro bono legal assistance from the Pacific Legal Foundation <www.pacificlegal.org> that has a impressive Case Record in lawsuits involving the USFWS, the US Department of Interior and the California Fish and Game Commission.

Pro bono legal advice may also be available from the Natural Resources Law & Policy Center at the University of Arizona that was recently formed as a joint venture between the College of Agriculture and Life Sciences and the College of Law (<<https://extension.arizona.edu/nrulpc-brochure>>. The Center's mission would appear to encompass issues such as the domestic sheep grazing on Conway and Mattly Ranches vs. the USFWS reintroduction of Bighorn sheep on adjacent USFS land in the Sierra. I'm acquainted with the Dean of the UofA College of Agriculture and Life Sciences and would be willing to contact the Natural Resources Law and Policy Center on behalf of Mono County regarding the sheep grazing issue if the BOS wishes me to do so.

Subject: Comment on February 7, 2017, BOS Agenda Item 9C

Dear Members of the Board,

Please accept the following for the record regarding the Board's Agenda Item 9.C. February 7, 2017, on Conway Ranch Management. I am writing in case that the weather may prevent me from attending in person.

I urge the Board to select Action #2 from among the options presented by staff:

Schedule presentation by the USFWS and/or CADFW on Sierra Nevada Bighorn Sheep as a separate agenda item, before the Board considers issuance of a request for proposals for grazing at Conway Ranch.

It is logical that the presentation by the agencies to the Board and the public, with adequate time for questions and answers, on the status of the Sierra Nevada Bighorn and on the risks posed by domestic sheep grazing to Bighorn should precede the consideration of issuing an RFP for domestic sheep grazing at Conway Ranch.

Then, it makes sense to schedule consecutively, and as a separate agenda item at that meeting- a Board discussion which concludes with the BOS directing staff how to proceed on:

- 1) Whether to draft an RFP that includes proposals for sheep grazing or not.
- 2) Whether the BOS directs staff to prepare an RFP, and if so, what other options are to be considered, including: grazing of other livestock, or managing the property for wildlife habitat conservation goals, or other possible agricultural activities that are compatible with the natural resource management goals for the property.

Tomorrow, I hoping that these items can be scheduled to take place for the February 21,2017, BOS meeting, so that the agencies and the public have adequate time to plan to attend.

Thank you for your consideration of these comments.
