Northern Mono Hospice Handout

Northern Mono County Hospice Recruiting New Program Volunteers Volunteers Must Attend Hospice Training

April 30, May 1 & 2, 2020

Recruiting Residents from Walker, Coleville, Topaz, Bridgeport & Lee Vining

To Register for Training, Contact Patti Hamic-Christensen 760-809-1489

Training Schedule

Attend Day 1 to become a General Hospice Volunteer; Attend all three Days to become an End of Life Doula.

Thursday, April 30 Day 1: Hospice Training

8:45 – 9:00 Check-in/get acquainted
9:00 -10:30 Hospice/Palliative Care overview
10:40 – 12:30 Personal Death Awareness
12:30 – 1:30 lunch
1:30 – 3:30 Grief Walker/Being Mortal
3:30 – 3:45 Break
3:45 – 5:45 Communication/Role of a Volunteer

Friday, May 1 Day 2: Doula Training

9:00 –12:00 (with 1 break)
12:00 -12:30 Lunch
1:00 -5:30 Training continued

Saturday, May 2 Day 3: Doula Training

9:00 – 12:00 (with 1 break)
12:00 -12:30 Lunch
1:00 - 5:30 Training continued

Trainer - Kris Kington-Barker has been the Executive Director for Hospice of San Luis Obispo (SLO) County in California since 2010. She was drawn to the work of INELDA when seeking a way for Hospice SLO to more fully embrace the spiritual, social, and emotional aspects of end of life care. In 2015, she brought INELDA to Hospice SLO for the first of a series of doula trainings offered to staff and volunteers. Kris has been a lead doula since then. She received her INELDA doula certification in early 2017 and then became an INELDA trainer.

Prior to her work at Hospice SLO, Kris worked in the fields of mental health, rural clinic education, and acute care hospital planning, development, operations and administration. She is currently a board member for INELDA; Health Commissioner for the SLO County Health Commission; a Certified Conscious Aging facilitator through the Institute of Noetic Sciences, and a POLST and Advanced Healthcare facilitator/trainer through the California Coalition for Compassionate Care. Kris also hosts Central Coast Voices, a weekly talk show addressing community issues, which airs on KCBX-FM Public Radio.

Kris's work in hospice, and as a doula, has allowed her to align the skills learned throughout her career with her heart's work. She seeks to inspire and mentor communities and individuals to hold dying and death with as much reverence as we do the beginning of life.

Northern Mono County Hospice

P.O. Box 274, Coleville CA 96107

760-616-4787

Northern Mono County Hospice

Program Accomplishments

The NMCH program started taking clients in April, 2019.

During this time, we have recruited and trained 31 volunteers: 4 living in Bridgeport, 2 living in Lee Vining and 25 living in the Antelope Valley.

We have conducted public outreach and have provided presentations to

Mammoth Hospital

Carson Tahoe Regional Medical Center

Carson Valley Medical Center

RPAC meetings in Lee Vining and Antelope Valley

Board of Supervisors

Women's Club and Lions Club of Antelope Valley

Health Faire in Antelope Valley

We have assisted 10 clients during this time:

2 from Bridgeport

8 from Antelope Valley

Of the 10 clients:

6 were short term and passed

4 have long-term degenerative conditions and 2 continue to be served

We were awarded a grant from the Sierra Health Foundation and we held multiple fundraising events including:

4th of July Food Booth

Annual Luau Dinner Fundraiser

Preparing Woman's Club Annual Fundraiser Dinner

We have coordinated new medical support for hospice clients with the ^{Toiyabe} Bridgeport Indian Health Clinic, the Antelope Valley EMTs and created referral and response guidelines with the Coroner's Office.

We have worked with Kathy Peterson, Director, Mono County Department of Social Services, to support our training and intake needs.

Correspondence

Corrected NOP

CORRECTED NOTICE OF PREPARATION

Casa Diablo IV

Date: March 6, 2020

To: State Clearinghouse, Responsible and Trustee Agencies

Subject: Corrected Notice of Preparation of a Supplemental Environmental Impact Report for the Casa Diablo IV Project (State Clearinghouse No. 2011041008)

Project Title: Casa Diablo IV Geothermal Power Plant Project Supplemental EIR

Correction: The Notice of Preparation (NOP) circulated on February 26, 2020, for the Casa Diablo IV Geothermal Power Plant Project mistakenly described and showed an incorrect version of the project. The project approved by the Great Basin Unified Air Pollution Control District (District) and the Bureau of Land Management (the “Project”) does not include a water cooling system or a reverse osmosis water treatment facility, and uses the Alternative 3 geothermal pipeline alignments. This NOP has been revised to correct these details. This corrected NOP is issued to avoid potential confusion about the overall Project, but does not restart the scoping period defined in the original NOP because the corrections do not affect the limited scope of the Supplemental Environmental Impact Report (SEIR) described below. The scoping period concludes at 5:00 p.m. on March 27, 2020.

The District will be the Lead Agency pursuant to the California Environmental Quality Act (CEQA) and will prepare an SEIR for the Project. The District is preparing the SEIR in response to the 2019 Appellate Court’s decision in *Covington v. Great Basin Unified Air Pollution Control District* (2019) 43 Cal.App.5th 867, which resolved a CEQA challenge to the 2013 Environmental Impact Statement (EIS)/EIR for the Project.

In response to the decision made by the Court of Appeals, the SEIR will focus exclusively on the feasibility of additional mitigation measures proposed in comments provided on the 2013 Draft EIS/EIR to limit the fugitive emissions of reactive organic gas (ROG). If it is determined that the additional mitigation measures are feasible, then the SEIR will evaluate the potential measures under the CEQA Guidelines, including Section 15126.4, and the environmental impacts that would result from implementing them.

Scoping Comments: Written scoping comments will be accepted at any time during the 30-day scoping period. Instructions for submission of comments and contact information are listed below.

PROJECT LOCATION

The Project would be located on public land (BLM Geothermal Lease # CA-11667 and CA-11667A) in Sections 29 and 32, Township 3 South, and Range 28 East Mount Diablo (MD) Base and Meridian

(B&M). This location is approximately two miles east of the town of Mammoth Lakes in Mono County, California. A location map of the Project area is attached to this Notice as **Figure 1**. The Project has not changed since it was approved by the District and the BLM. It includes construction, operation and maintenance of a geothermal power plant and up to 16 geothermal resource wells (some new and some existing) and associated pipelines on portions of BLM Geothermal Leases CA-11667, CA-14408 and CA-11672 located within the Inyo National Forest in Section 25 of T3S, R27E and Sections 30, 31 and 32 of T3S, R28E, MD B&M. The Project is proposed entirely within the Mono-Long Valley Known Geothermal Resource Area (KGRA) in Mono County, California.

PROJECT DESCRIPTION

Ormat Nevada Inc., proposes to build, and following the expected 30-year useful life, decommission the Casa Diablo IV Geothermal Development Project in the vicinity of the existing Mammoth Pacific L.P. (MPLP) geothermal complex (**Figure 2**). The Project would consist of the following facilities:

1. A geothermal power plant consisting of two Ormat Energy Converter (OEC) binary generating units (21.2 MW gross each) with vaporizers, turbines, generators, air-cooled condensers, preheaters, pumps and piping, and related ancillary equipment. The gross power generation of the plant would be 42.4 MW. The estimated auxiliary and parasitic loads (power used within the Project for circulation pumps, fans, well pumps, loss in transformers and cables) is about 9.4 MW, thus providing a net power output of about 33 MW. Additional components of the power plant would include:
 - b) A motive fluid system consisting of motive fluid (n-pentane) storage vessels (either one or two vessels in the range of 9,000 to 12,000 gallons) and motive fluid vapor recovery systems (VRUs). Each VRU would consist of a diaphragm pump and a vacuum pump.
 - c) A new substation that would be constructed on the power plant site and would be connected to the existing Southern California Edison (SCE) Casa Diablo Substation at Substation Road.
 - d) An overhead 33 kV transmission line approximately 650 feet (198 meters) long that would connect the power plant substation with the SCE Casa Diablo Substation.
2. Up to 16 geothermal wells are proposed. Fourteen (14) of the wells would be located in the Basalt Canyon area and two wells would be located southeast of the proposed power plant east of U.S. Highway 395. The specific locations for these wells would be selected out of 18 possible locations (**Figure 2**). The actual number of wells required may be less depending on the productivity of the wells. The final number and location of wells would be determined by modeling and actual drilling results. Approximately half of the wells would be production wells and the other half would be injection wells. Each production well would range in depth from 1,600 to 2,000 feet below ground surface (bgs) and each injection well would be drilled to approximately 2,500 feet bgs. Production wells would be equipped with a down-hole pump powered by a surface electric motor. Thirteen (13) of the 18 proposed well locations in the Project area were analyzed and approved for exploratory well development during previous environmental reviews (BLM 2001 and BLM 2005). Two of these previously approved exploratory wells were drilled in 2011.
3. Piping would extend from the production wells to the power plant and from the power plant to the individual injection wells. Two main pipelines would parallel the existing Basalt Canyon pipeline

and would cross beneath U.S. Highway 395 between the well field and the power plant site (Figure 2). Where pipelines must cross another pipeline or a road, the crossings would be underground.

4. Power and control cables for the wells would be installed in above-ground cable trays placed on the pipeline supports. Ancillary facilities would include pumps, tanks, valves, controls, and flow monitoring equipment.

POTENTIAL ENVIRONMENTAL EFFECTS

The environmental effects of the Project were evaluated and identified in the 2013 EIS/EIR as Alternative 3 (Agency Preferred Alternative). Alternative 3 ultimately was carried forward and approved by the BLM and the District, and is the Project for purposes of the SEIR. Based on the analysis in the 2013 EIS/EIR, the Project could result in impacts to Air Quality, Biological Resources, Cultural and Paleontological Resources, Geothermal and Groundwater Resources, Geology and Soil Resources, Noise, Public Health and Safety, Hazardous Materials and Fire, Recreation, Traffic and Transportation, Utilities and Public Services, Surface Water Resources, and Visual Resources.

Under CEQA Guidelines Section 15234(d), which defines the scope of what a Lead Agency is to consider in the event of a remand, the analysis of all potential environmental effects of the Project will not be revisited in the SEIR. Instead, the SEIR will narrowly focus on the feasibility and potential environmental effects of the mitigation measures identified in comments on the 2013 EIS/EIR to reduce the Project's fugitive ROG emissions.

PUBLIC COMMENT PERIOD

The public scoping period for the SEIR will commence on February 26, 2020, and conclude on March 27, 2020. Copies of this NOP will be available for review during business hours at the District office located at 157 Short Street, Bishop, CA 93514.

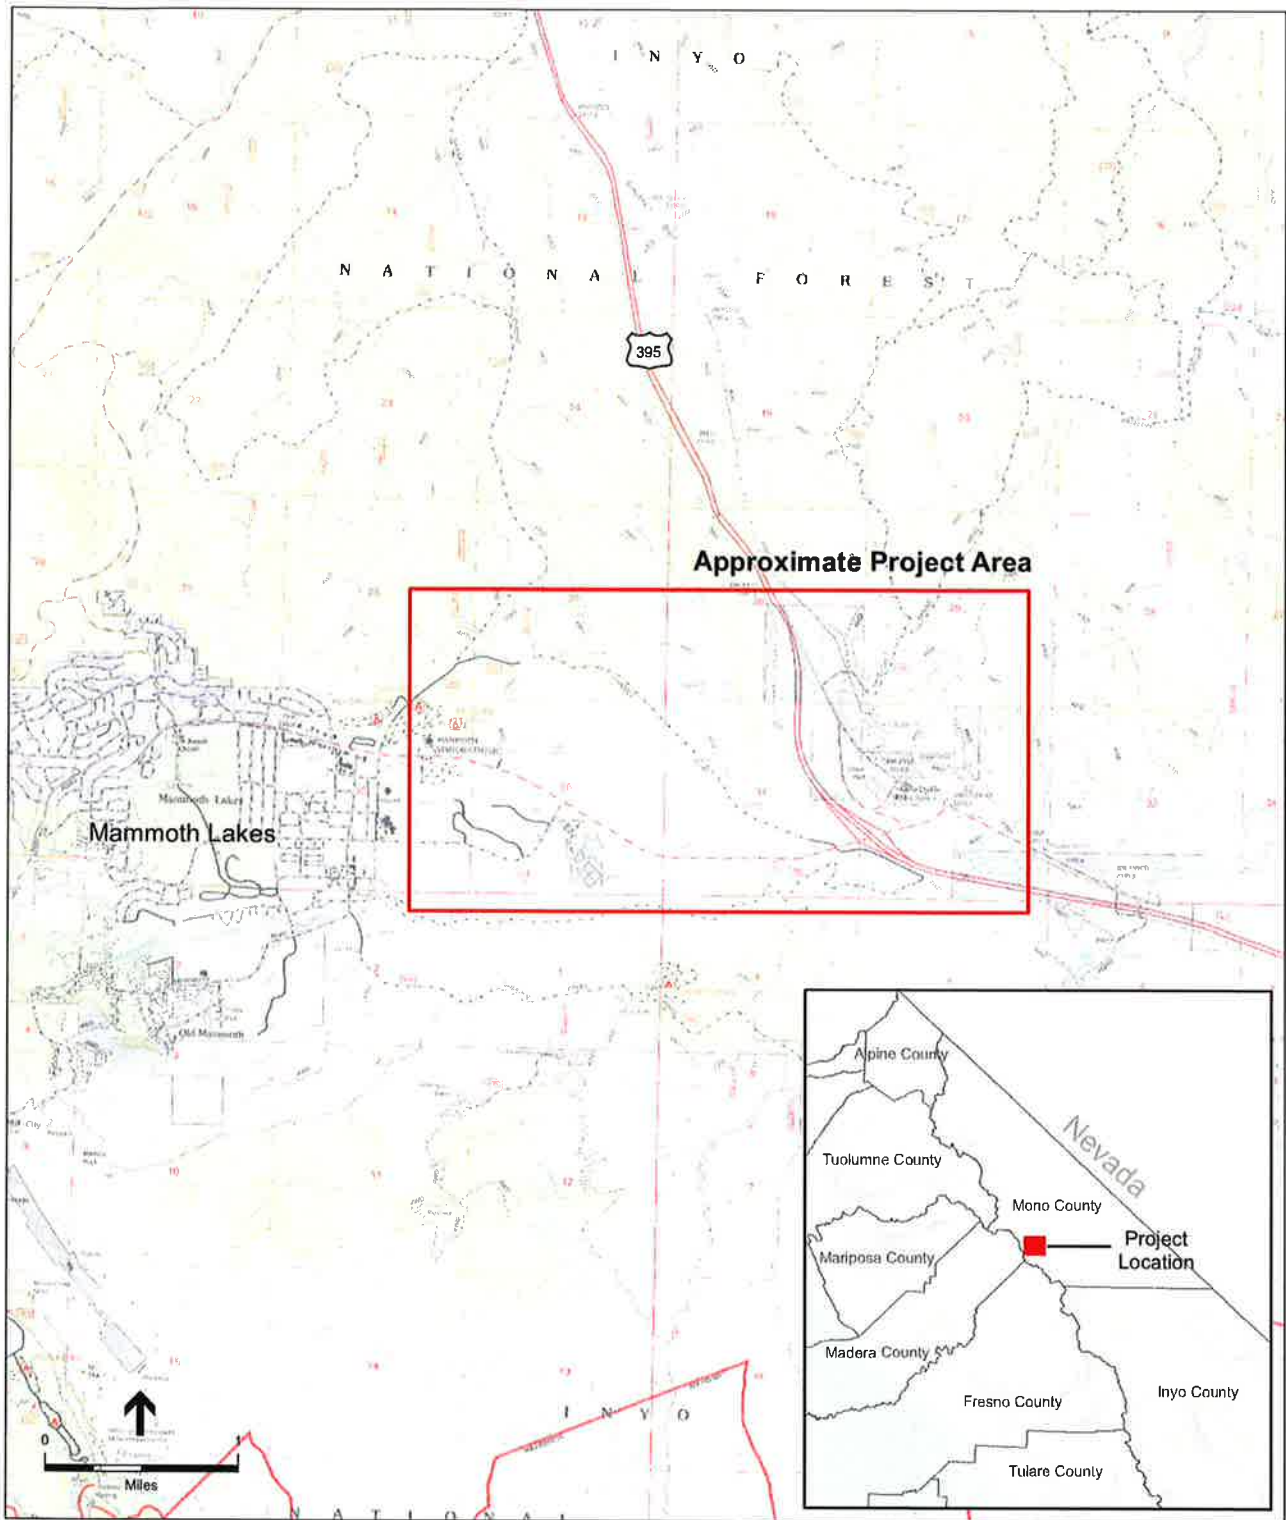

A copy of this NOP also will be posted online at <http://www.gbuapcd.org> under What's New. Comments concerning this action will be accepted until 5:00 p.m. on March 27, 2020. Comments may be submitted by any of the following methods: 1) via mail or hand delivery to the District's office at 157 Short Street, Bishop, CA 93514; or 2) via email to permits@gbuapcd.org. Names and addresses of commenters will become part of the public record.

About
COVID-19

How COVID-19
Spreads

Prevention

Symptoms &
Treatment

COVID-19
Testing

Situational
Report

Levels of
Alert

Emergency
Declarations

Preparation

Considerations

ABOUT COVID-19

- Coronaviruses are common in people and animals
- Animal coronaviruses can infect people and then spread from person-to-person
 - Severe acute respiratory syndrome (SARS) 2003
 - Middle East Respiratory Syndrome (MERS) 2012
 - Coronavirus Disease 2019 (COVID-19)
- COVID-19 is a betacoronavirus: origin in bats
- Epicenter of the outbreak in Wuhan, China with link to a large seafood and live animal market
- Person-to-person spread was subsequently reported outside of China, including the US and California.

HOW COVID-19 SPREADS

- **Person-to-person**
- **Contact with infected surfaces or objects**
- **Community spread**
- **At-risk populations**
 - **New guidance released from CDPH 3/9/20**

Help prevent the spread of respiratory diseases like COVID-19.

Avoid close contact with people who are sick.

Cover your cough or sneeze with a tissue, then throw the tissue in the trash.

Avoid touching your eyes, nose, and mouth.

Clean and disinfect frequently touched objects and surfaces.

Stay home when you are sick, except to get medical care.

Wash your hands often with soap and water for at least 20 seconds.

For more information: www.cdc.gov/COVID19

PREVENTION

SYMPTOMS & TREATMENT

Symptoms may appear **2-14 days after exposure**

- Mild symptoms to severe illness
- Fever
- Cough
- Shortness of breath

People who think they may have been exposed to or have symptoms of COVID-19 should contact their healthcare provider immediately.

Fever

Cough

Difficulty Breathing

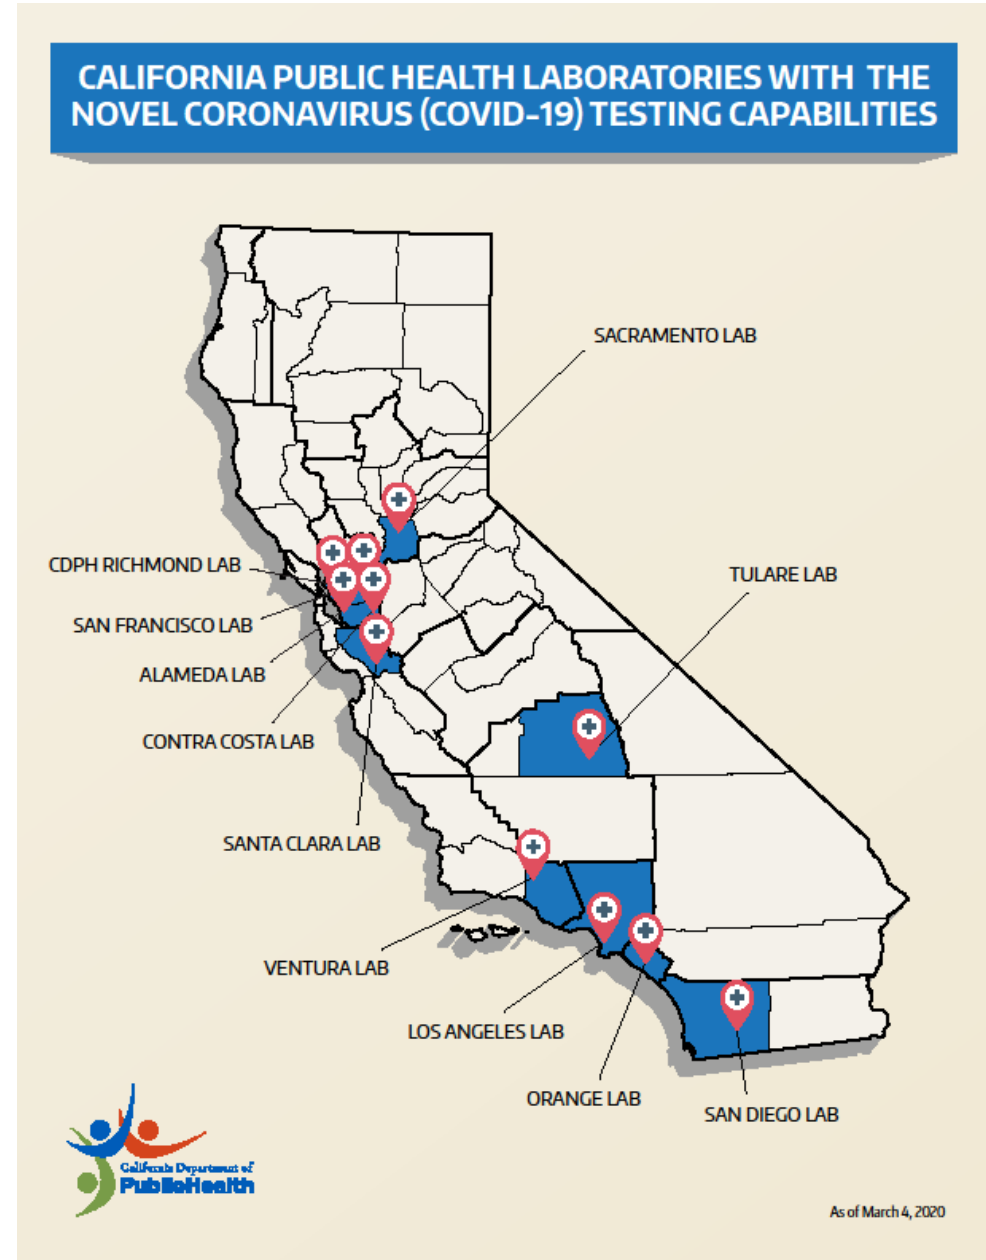

Severe Illness

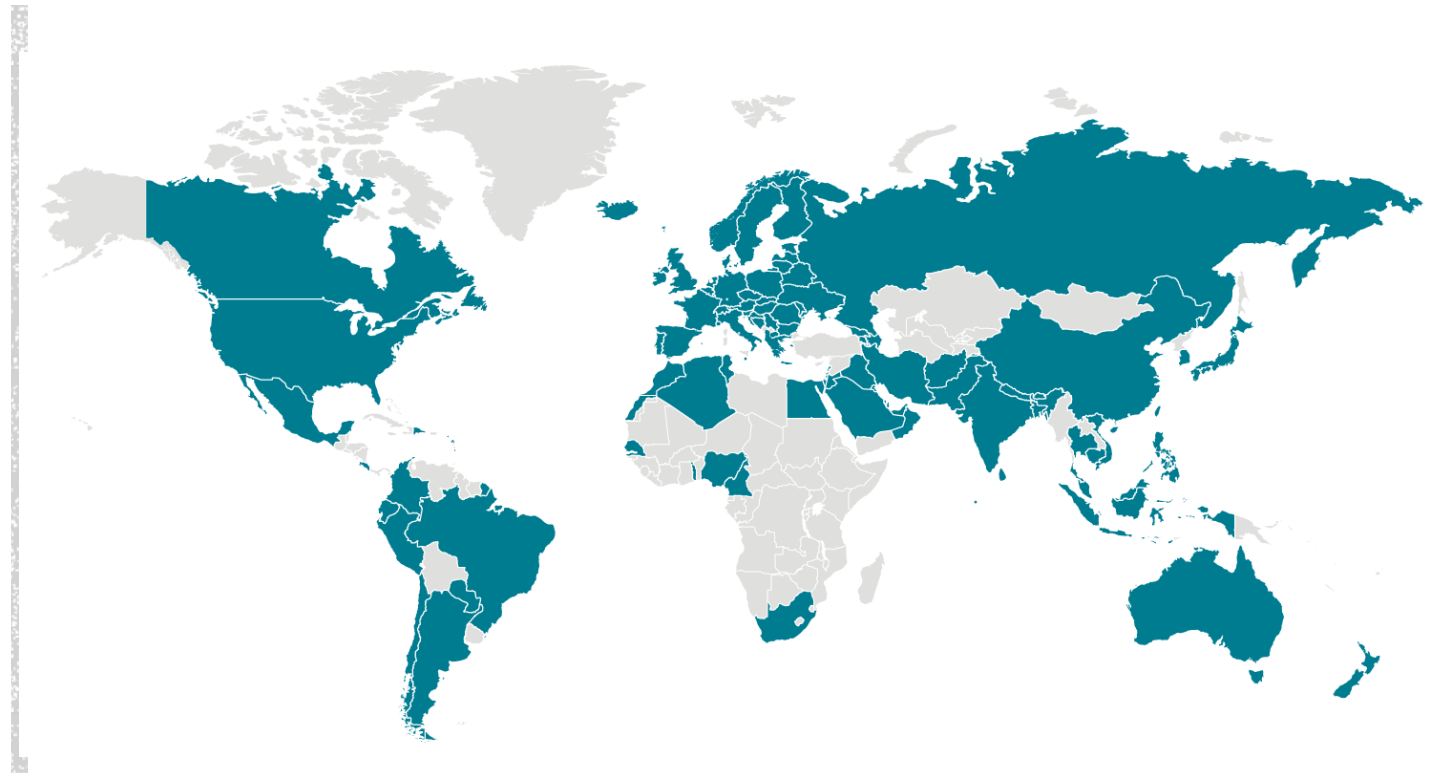

COVID-19 TESTING

- Laboratory testing is available at some of California's public health labs and commercial labs.
- Requests for testing approved by the local public health department.
- Each request reviewed on a case-by-case basis with the medical provider, based on risk.

**COVID-19
SITUATIONAL
REPORT**

www.monohealth.com
ncov2019.live

Updated March 9, 2020

MONO COUNTY COVID-19 LEVELS OF ALERT

LEVEL 0: Normal

- Indicates normal operations. Local, national, and international health monitoring warrant neither increased concern nor actions beyond normal surveillance.

LEVEL 1: Watching

- A transition point and a departure from normal operations. An incident that initiates a change in operations, in anticipation of a possible health threat that is not yet assessed as credible or imminent.

LEVEL 2: Warning

- A health threat, possibly triggered by a local incident, that poses immediate risk to the community and may require resources from outside local systems. Would generally correlate with opening a Departmental Operations Center and declaration of local health emergency.

LEVEL 3: Widespread

- Imminent risk of a widespread community health threat, including increased morbidity, mortality, and a surge on emergency and medical systems of care.

EMERGENCY DECLARATIONS

State of California: March 4, 2020

EXECUTIVE DEPARTMENT
STATE OF CALIFORNIA

PROCLAMATION OF A STATE OF EMERGENCY

WHEREAS in December 2019, an outbreak of respiratory illness due to a novel coronavirus (a disease now known as COVID-19), was first identified in Wuhan City, Hubei Province, China, and has spread outside of China, impacting more than 75 countries, including the United States; and

WHEREAS the State of California has been working in close collaboration with the national Centers for Disease Control and Prevention (CDC), with the United States Health and Human Services Agency, and with local health departments since December 2019 to monitor and plan for the potential spread of COVID-19 to the United States; and

WHEREAS on January 23, 2020, the CDC activated its Emergency Response System to provide ongoing support for the response to COVID-19 across the country; and

- Unified Command

COMMUNITY PREPARATION MEETINGS

Mammoth High School Cafeteria

- March 11, 2020 6:00pm – 7:00pm

Walker Senior Center

- March 18, 2020 @ 12:30pm – 2:00pm

Bridgeport Memorial Hall

- March 18, 2020 @ 3:00pm – 4:00pm

Benton Community Center

- March 19, 2020 @ the 5:30pm – 6:30pm

* Spanish language interpretation will be available at the Bridgeport and Mammoth meetings.

* At this time, the risk of public gatherings like this is low and outweighed by the potential benefits of keeping people informed. This is a fluid situation.

Employers need to prepare to reduce the risk of transmitting COVID-19 and other illnesses:

- Daily cleaning of frequently touched surfaces and other preventive measures
- Policies for
 - employees with respiratory illness and/or fever
 - sick clients
 - exposure reduction for at-risk clients
 - temporary emergency workforce recruitment
 - workforce shortages due to school closures
 - virtual business solutions
 - postponement or cancellation of non-essential travel and events
- Leave for employees
 - diagnosed with, or quarantined for COVID-19
 - caring for family members diagnosed with, or quarantined for COVID-19

NOW IS THE TIME TO PLAN

CONSIDERATIONS

News Release

CALIFORNIA DEPARTMENT OF PUBLIC HEALTH

FOR IMMEDIATE RELEASE

March 9, 2020

PH20-016

CONTACT: CDPHpress@cdph.ca.gov

State Health & Emergency Officials Encourage Individuals at Higher Risk of Severe Illness due to COVID-19 to Take Precautions

Older Adults and People with Serious Medical Conditions are More at Risk and Encouraged to Stay Home as Much as Possible

SACRAMENTO – The California Department of Public Health is encouraging Californians who are at higher risk for serious illness from COVID-19 to take actions to reduce their risk. Early information out of China, where COVID-19 first started, shows that some people are at higher risk of getting very sick from this illness. This includes:

- Older adults
- Individuals with compromised immune systems
- Individuals who have serious chronic medical conditions like:
 - Heart disease
 - Diabetes
 - Lung disease

If you are at higher risk for serious illness from COVID-19 because of your age or health condition, it is important for you to take actions to reduce your risk of getting sick with the disease. Actions you can take to reduce your risk includes:

- Wash your hands often with soap and water for at least 20 seconds, especially after blowing your nose, coughing, or sneezing, or having been in a public place.
- Avoiding touching eyes, nose or mouth with unwashed hands.
- Avoid close contact with people who are sick, and stay away from large gatherings and crowds.
- Stay home as much as possible. Consider ways of getting food brought to your house through family, social, or commercial networks.

It is also important that you listen to public health officials who may recommend community actions to reduce potential exposure to COVID-19, especially if COVID-19 is spreading in your community.

For more information visit the [CDC's website](#).

For more information on COVID-19 and California's response visit the [CDPH website](#).

COVID-19 in California by the Numbers (as of 7 a.m. Pacific Time):

133– Positive cases (this does not include passengers from the Grand Princess cruise ship currently off the coast of California)

24 – Cases of positive tests related to federal repatriation flights

109 – Cases not related to repatriation flights

- 44 - Travel-related
- 28 - Person to person
- 19 - Community transmission
- 18 – Under investigation

10,300+ – Number of people self-monitoring who returned to the U.S. through SFO or LAX

49 – Number of local health jurisdictions involved in self-monitoring

19 – Labs with test kits, 17 of which are already testing

How Can People Protect Themselves:

Every person has a role to play. So much of protecting yourself and your family comes down to common sense:

- Washing hands with soap and water for a minimum of 20 seconds.
- Avoiding touching eyes, nose or mouth with unwashed hands.
- Cover a cough or sneeze with your sleeve, or disposable tissue. Wash your hands afterward.
- Avoiding close contact with people who are sick.
- Staying away from work, school or other people if you become sick with respiratory symptoms like fever and cough.
- Following guidance from public health officials.

What to Do if You Think You're Sick:

Call ahead: If you are experiencing symptoms of COVID-19 and may have had contact with a person with COVID-19, or recently traveled to countries with apparent community spread, call your health care provider or local public health department first before seeking medical care so that appropriate precautions can be taken.

California's Response to COVID-19:

We have been actively and extensively planning with our local public health and health care delivery systems. Here are some of the things we are already doing:

- As in any public health event, the California Department of Public Health's Medical and Health Coordination Center has been activated and is coordinating public health response efforts across the state.
- California continues to prepare and respond in coordination with federal and local partners, hospitals and physicians.
- Governor Newsom declared a State of Emergency to make additional resources available, formalize emergency actions already underway across multiple state agencies and departments, and help the state prepare for broader spread of COVID-19.
- Governor Gavin Newsom requested the Legislature make up to \$20 million available for state government to respond to the spread of COVID-19.
- California activated the State Operations Center to its highest level to coordinate response efforts across the state.
- 24 million more Californians are now eligible for free medically necessary COVID-19 testing.
- California made available some of its emergency planning reserves of 21 million N95 filtering face piece masks for use in certain health care settings to ease shortages of personal protective equipment.
- The Public Health Department is providing information, [guidance documents](#), and technical support to local health departments, health care facilities, providers, schools, universities, colleges, and childcare facilities across California
- The California Employee Development Department (EDD) is encouraging individuals who are unable to work due to exposure to COVID-19 to file a Disability Insurance claim.
- EDD is also encouraging employers who are experiencing a slowdown in their businesses or services as a result of the Coronavirus impact on the economy to apply for an Unemployment Insurance work sharing program.
- California continues to work in partnership with the federal government to aid in the safe return of 962 Californians from the Grand Princess cruise ship. This mission is centered around protecting the health of the passengers, and ensuring that when the passengers disembark, the public health of the United States, the State of California, and partner communities is protected.
- The Public Health Department is coordinating with federal authorities and local health departments that have implemented screening, monitoring and, in some cases quarantine of returning travelers.

- In coordination with the CDC, state and local health departments, we are actively responding to cases of COVID-19.
- The Public Health Department is supporting hospitals and local public health laboratories in the collection of specimens and testing for COVID-19.

The California Department of Public Health's state laboratory in Richmond and 18 other public health department laboratories now have tests for the virus that causes COVID-19. Seventeen of them are currently conducting tests, with the others coming online soon.

March 4, 2020

COVID-19 Community Meetings

The Mono County Health Department will host community meetings about the coronavirus (COVID-19) epidemic in several communities over the next few weeks. The purpose of these meetings is to provide community members with locally relevant information about the situation and to promote discussion. We will answer questions and hope to hear and understand community concerns.

We have no evidence at this time that COVID-19 is present in the Eastern Sierra and feel that the risk of public gatherings like this is low and outweighed by the potential benefits of keeping people informed. We are of course watching the situation closely and if we determine that there could be some risk from these community gatherings we may opt for other modes of communication.

Spanish language interpretation will be available at the Bridgeport and Mammoth meetings.

Wednesday March 11, 2020 @ Mammoth High School Cafeteria 6:00pm – 7:00pm

Wednesday March 18, 2020 @ Walker Senior Center 12:30pm – 2:00pm

Wednesday March 18, 2020 @ Memorial Hall in Bridgeport 3:00pm – 4:00pm

Thursday March 19, 2020 @ the Benton Community Center 5:30pm – 6:30pm

El Departamento de Salud del Condado de Mono organizará reuniones comunitarias sobre la epidemia de coronavirus (COVID-19) en varias comunidades durante las próximas semanas. El propósito de estas reuniones es proporcionar a los miembros de la comunidad información relevante a nivel local sobre la situación y promover el debate. Responderemos preguntas y esperamos escuchar y comprender las preocupaciones de la comunidad.

No tenemos evidencia en este momento de que COVID-19 esté presente en el Eastern Sierra y creemos que el riesgo de reuniones públicas como esta es bajo y los beneficios potenciales de mantener informadas a las personas son mayores del riesgo. Por supuesto, estamos observando la situación de cerca y si determinamos que podría haber algún riesgo en estas reuniones comunitarias, podemos optar por otros modos de comunicación.

Habrá interpretación en español en las reuniones de Bridgeport y Mammoth.

Item # 11b

Public Comment

White Mountain Fire Protection District

25470 Hwy 6, Benton California 93512

whitemountainfire@gmail.com

To. Supervisor Stump and the other Mono County Supervisors,

It has been brought to our attention that the wood waste voucher program is in danger of being cut. loosing the voucher program in our area would be a huge loss. Community clean up days are fine but in a area as spread out as White Mountain Fire Protection District it is not a practical alternative. Vouchers allow residents to clean up fuel hazards when there schedules allow them to do so. Creating piles waiting for a clean up day could result in the piles blowing around in the wind. The purpose of the voucher program is to protect the county tax base as well as to help homeowners. The amount of property tax generated by intact structures is much greater than that of parcels if those structures are destroyed by a wild fire. I hope the Mono County Board Supervisors will take our concerns into consideration.

Thank You,

Jarret Phillips

White Mountain Fire Protection District Board Chair

Dear Ms. Dedman:

I am President of the Pine Glade Association, an association of 48 cabin owners on Forest Service land near Toms Place. I write to let you know how our association has taken fuel reduction for fire safety around our cabins very seriously, and how the wood waste vouchers have helped encourage owners to participate in our fuel reduction goals. Our biggest problem with this program in the last couple of years has been obtaining vouchers from the local fire station, as the supply seems to have been limited. I have heard that the county is considering a different way to incentivize fuel reduction efforts, including assigning community clean-up days. This might be a fine idea too, but our challenge in Pine Glade, where we are required by Forest Service regulation to have primary residences elsewhere, is that owner schedules are not likely to coincide enough to have a thorough participation on a given day. I imagine this is a problem for all the communities in Mono County, but especially so for us on Forest Service permits. We have made great strides in reducing fuels in our tract in recent years, and this has no doubt contributed to a reduced hazard for us as well as for the adjacent Sunny Slopes community, and firefighters too. We are all concerned by trends in fire hazard, heartened by community efforts to reduce it, and open to new ways to do so. The voucher program seems like a good element in efforts to make our communities safer.

Sincerely,

Andy Selters
President, Pine Glade Association, Inc.

I have lived in Chalfant since 7/04 and I have to say the wood waste waivers have been a god send. It is often difficult to keep the tumbleweeds in check along with the trimmings and removal of dying cypress etc. Often when the temps are cool enough to do the physical labor needed i.e. winter, your outside water is turned off due to the below freezing temperatures so you can't burn. Thus the pile just sits there until summer and as we have learned we often have high winds in the winter causing fires and having a burn pile just sitting there is just inviting disaster. With the coupons you are motivated to get the pile to the transfer station.

I also notice when they are available most neighbors make the effort to clean up and the fire danger is reduced, and things look better. The coupons seem to act as a trigger to people to do the work involved. We were cal fire inspected last year and they were rather strict and consequently lots of a Brush trees had to be removed. Thank goodness the coupons were available do the stuff could be taken away.

Additionally, not everyone has the space to burn safely.

Thus I would urge the county to keep this program intact for the trick valley area.

Please excuse the formatting as this was written on a cell phone.

Roberta Lagomarsini
128 Ronda Chalfant ca

rlagomars@gmail.com

Dear Ms. Dedman,

I would like to have the wood waste vouchers continue. I also support Community Clean up days. I am a Paradise resident who frequently travels for business and pleasure. There is a good chance that I would not be at home during a community clean up day. I still would like to be able to deposit my bags of thistle and other flammable plants at the transfer station when I am home though the voucher system.

Sincerely,

Patricia Brown, Ph.D.

134 Eagle Vista

Paradise Estates

Bishop, CA 93514

760 920 3975

Dear county officials-

Regarding the proposal to eliminate wood waste vouchers in favor of community clean up days, the latter would in no way serve as a comparable replacement for the former. The weeds around our house grow on their own schedule, and as they do I pull them resulting in large flammable pile. The vouchers allow me to immediately get rid of that pile, before the wind scatters it as is likely to happen if I have to wait for some predetermined community wide clean up day.

I don't know how the vouchers are being abused, but those individuals responsible for that are the ones that should be held accountable, not the rest of us. Perhaps the abusers should lose the right to get vouchers for a year or something. Also, I think it would be good for everyone to hear about how the vouchers are being abused.

Thank you for your time.

-Michael Kanouff, 4856 Deer Peak Trail, Paradise, 760-387-2148

I understand there is a controversy regarding getting tickets for clean brush disposal vs a day of clean-up. I am all in favor of tickets, I have a fellow that works for me and making that day on a subjective day of clean-up would not work. We live on 7 acres and always have clean brush to dispose of, but it is costly to take to the dump and the tickets would allow me to take the brush on a day convenient to me not the county. I also think it would prompt people to clean around their houses.

So please put my vote for tickets.

P.O. Box 715
Bridgeport, CA 93517

RE: Defensible Space Wood Waste Program

Dear Board Members,

The Long Valley Fire Protection District wants the Board of Supervisors to be aware that the District is opposed to any changes to the "Defensible Space Wood Waste Program". This program was put into place to help encourage residents to create defensible space around structures and reduce wildfire fuel. This program helps to prevent a catastrophic event if a wild fire occurs in our District and the County. A perfect example of a pro-active defensible space program is Lower Swall Meadows. Had that program not been in effect the property loss from that fire would have been much greater.

This program has proven to be effective and is appreciated by the residents. If the County starts charging dump fees for wood waste, residents will not be as pro-active to taking it to the dump. We need to encourage creating and maintaining defensible space, which is exactly what this program currently does.

Sincerely,

Sharon M. Shaw, Chairman Long Valley Fire Protection District Board of Commissioners

cc County Administrative Officer
cc County Counsel
cc file

Kay G <kaygarrick@sbcglobal.net>

Good Day,

I reside in White Mountain Estates, Mono County, District 2 and have heard that the Wood Waste Vouchers for our area are currently on hold and not available until decisions are made by the Board of Supervisors. I understand that the Board is considering eliminating this program and moving more towards Community Clean Up Days.

As a retired woman, I have regularly utilized the Wood Waste Vouchers to effectively clear my property of hazardous growth. I feel that this program works very well as it allows me to take care of the yard waste and bring it to the transfer station when I'm done. I can manage the yard at my pace, take the yard waste away in a timely manner. This program has worked well for most of us in the community and should not be discontinued because of some misuse. For Community Clean Up Days, I assume that certain dates are designated to take yard waste to the transfer station. What if I am not available to take my yard waste in on that day? Does the waste just sit in my yard waiting for the next Clean Up Day? That seems to defeat the whole purpose of motivating residents to actively remove yard waste that may contribute to wild fires.

I think you, as the Board, need to look at your responsibility in protecting our lands, county, property and residents. The overall intention of having the Wood Waste Vouchers is to encourage residents to be good stewards of the land and create defensible space to protect property which prevents wildfires. This program has been working well for our community and needs to be continued ASAP.

Thank you for your work for our community and your consideration.

Sincerely,

Kay Garrick
30 Sequoia Street

Bishop, CA 93514

Hi, I just want to voice a request to continue the wood waste coupon program. It is a convenient way to keep our yard and peripheral area clean of debris. I hope it continues.

Jim Lewey
Sent from my iPhone

From what I understand, there are plans suggested to eliminate the Wood Waste Vouchers in favor of Community Clean-Up days where wood waste would be accepted for free.

Most Mono County residents have busy schedules and pressing commitments in their work and personal lives. Adding to the time-juggling by eliminating the flexibility of taking wood waste to the transfer stations as their time allows will not benefit anyone. I believe that eliminating the vouchers will have a negative effect on the overall goal of the Wood Waste Program, that being disposal of fire hazard vegetation to encourage defensible space and protect property and, possibly, lives.

If the problem with the program is that abusers are dropping off materials that don't qualify as wood waste, then the abusers should be better educated and the drop offs better monitored. To stop the program without first taking these measures is, in my opinion, irresponsible.

For Community Clean-Up days to be effective for elimination of the fire hazard vegetation, they would have to be held at least monthly during most months of the year and be well advertised with plenty of advance notice of the clean-up dates and allowable materials.

Defensible space is important to all of us. Making it harder for residents to achieve that goal is not a wise thing to do.

Thank you,
Geri Bassett
Chalfant Valley Resident

I would like to give my opinion to the Board of Supervisors on reasons to keep the Wood Waste program.

My name is Craig Williams and my wife and I have been residents of Paradise since 1997. I have been involved with the Volunteer Fire Department for most of that time as a board member, volunteer and Chief. I am retired from CalFire after over 30 years of working for the State and did property inspections in this area for years. Not until the Round Fire scared people straight 5 years ago did many people take fuel reduction seriously in the area. We now only have 2 days a week to deliver our waste to the transfer station and the dumpster is full over the top many times during the summer. This has caused me to have to drive with my truck loaded to somewhere else or wait for the next open day. To think you could have a few clean up days a year and have the logistical needs to fulfill the day is not likely. Some like myself continue to remove dead fuels blown in by wind from undeveloped lots or trim into those lots to reduce the fire threat. We can have fires in this area year around due to the winds and dry climate. We do not want people stacking up there dead trimmings and brush removal to wait for a free clean up day. This could cause a bigger threat for fire in the community and allow piles to be blown around into other lots. Please keep the Wood Waste program in place and maybe cut down on the amount of vouchers per address to keep control of abusers.

Thank you for your time,
Craig S. Williams
4843 Sherwin Trail
Paradise

Charles Tucker <ctuckernh@hotmail.com>

The current program is good because it lets one take the waste away as one "harvests" it, which happens year round, each property owner doing it on his/her own time. The problem with a few community clean up days is that one has to keep it from blowing away once it is "harvested".

I would like tickets instead of a day, my fellow that works would not present a good time. Please file my request for tickets instead of a Day.

To: Mono County Board of Supervisors
From: Wheeler Crest Fire Safe Council
Re: Wood Waste Voucher Program

March 5, 2020

Dear Mono County Board of Supervisors,

The Wheeler Crest Fire Safe Council would like to express its gratitude and support for the Wood Waste Voucher Program. With first-hand experience of the destruction that can be caused by a wildfire, our residents depend on this program to help maintain their defensible space. A small incentive such as dump vouchers makes the chore of property maintenance more feasible. For part-time residents, it is important to facilitate their defensible space work at the times when they are here. Scheduled clean up days will be difficult for part-time residents to utilize and their fire safe activities may decline.

Given the hit on property values caused by the Round Fire and the associated decrease in Mono County tax revenue, the small cost of the dump vouchers seems like a good investment. As outlined in our recent Community Wildfire Protection Plan, another wildfire in Swall Meadows is inevitable. The only uncertainty is whether we are prepared, and the dump voucher program is a crucial component of our preparation.

We would be happy to assist Mono County in educating Swall Meadows residents on the requirements of the program. There is a need for more outreach and education around this program to ensure that residents are not dumping inappropriate materials. Frankly, a good start might be a new name for the program that focuses on defensible space or public safety rather than "wood." WCFSC can circulate educational materials through our active outreach efforts and meetings.

Please feel free to contact me with any questions or if we can assist with this program. Thanks again for your past support of creating defensible space in Swall Meadows.

Sincerely,

A handwritten signature in blue ink that reads "Karen Ferrell-Ingram".
