

CAC minutes, Oct 5, 2022, 18:00

Meeting begins: 18:02

Public Comment:

None

Virtual resolution:

Move: David

Second: Janet

Passes 3:0

Supervisor Gardner Report:

Oct 18: Session from Danny Taylor focused on bears. Based on concerns around the area. Also, county is looking at county ordinances regarding creating or exacerbating bear hazards.

Will be receiving funds from Rescue Plan, and other sources. This will provide the ability to make some investments across the county.

Member reports:

Chair: Finished wooding in the parking lot and chipping large amounts of wood. Community service by members – Gull lake, June Lake beach cleanup, etc. Getting ready for winter.

Janet:

June Lake Jamfest successful, well attended, financially successful. Will be able to partner with the arts council.

David

Parker Bench boardwalk rehab complete

Will reach out to Bob Marks regarding SCE relicensing comments

Lost minutes for Aug. meeting. Minutes now moved to Google cloud for extra safety.

Michael (planning staff)

Various projects occurring throughout the county. Not much in June Lake area. Directors review for parking management plan, spa building permit in June Lake. Prescribed ADU designs are now up and available.

Bob: No application yet submitted for large Marzano property.

Julie: Gull Lake sports court discussion. Options for pickle ball and refurbishment. See attached presentation.

Working on getting a quote to resurface the tennis court. Estimated age of court: at least 15-20 years.

Can also just paint pickleball lines for ~\$1650. Several options for refurbishing have been recommended for this court. Costs range up to \$75,000-80,000 for complete renovation.

Janet: There are already ideas for park renovation, concerns are that if large amount of money is spent, there will be no ability to propose something different.

Bob: Has been trying to get FS to work out lease issues.

Julie: Discussion of various options she's seen.

Bob, Janet - Discussion of funding

Bob: Will move ahead with putting together a community meeting about the direction of park improvements.

In person vs. virtual meetings:

For now, continue with zoom meetings

Covid update:

- Mono case numbers are very low, but not everyone reporting cases.
- Some concern about new variants.
- Vaccines available (updated for recent variants)
- No vaccines in schools (eastern sierra school district)

Future agenda items:

Planning for park direction meeting

Women's club: Planning holiday things

Chamber of Commerce: Leaves in the loop Oct. 14-16: photography walk, historical walk, online photography contest. Parking can be an issue at popular spots.

Julie: Discussion of TBID programs, whether businesses want it.

Bob: Supportive of it, however there are concerns of how the money is spent. Should it be spent on marketing? Or infrastructure? Also questions of scale. Should potentially be more than just lodging – Mammoth is a good example.

Janet: Can use funds to fund a coordinator.

Bob: suggest a community meeting on TBIDs

adjourn: 19:05

GULL LAKE PARK SPORT COURT

OPTIONS FOR PICKLE BALL, AND POSSIBLE REFURBISHMENT

GULL LAKE MARINA CURRENTLY SUPPORTS THE COURT WITH EQUIPMENT CHECKOUT

CURRENT COURT – FENCING PERIMETER AREA MEASURES 60' X 120'

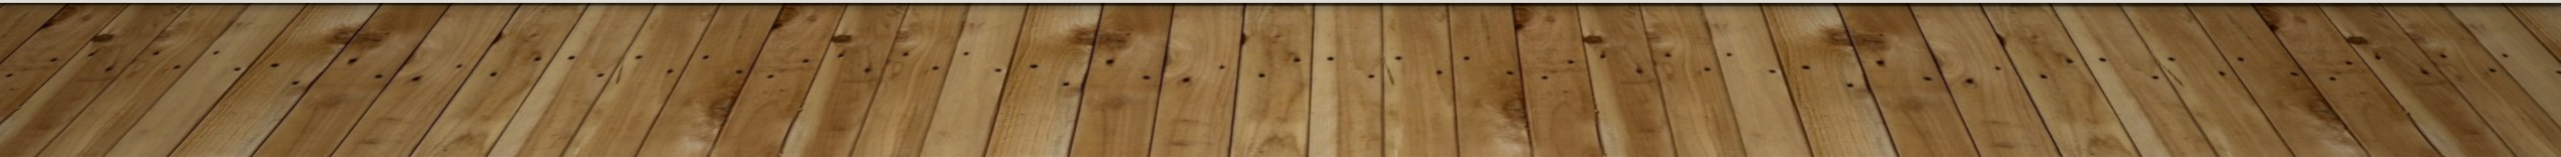

UNDER LAY PAD HAS CRACKING AND GRASS GROWING THROUGH

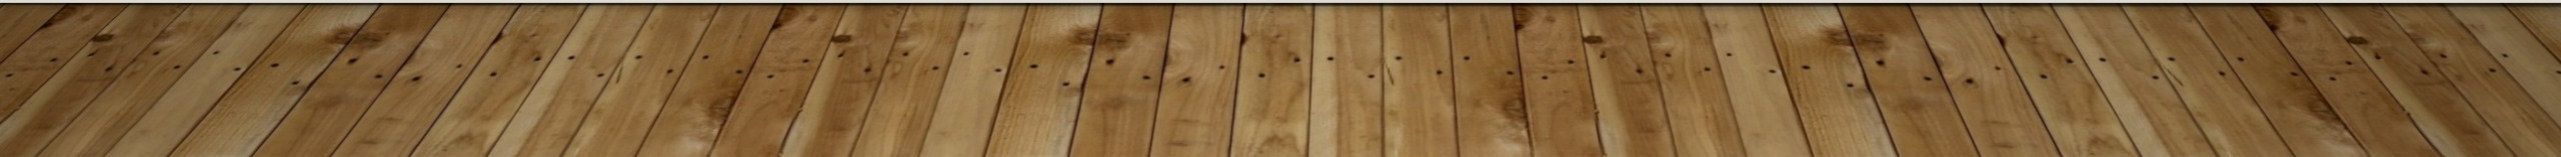

LOOKS LIKE THERE ARE LINES FOR
VOLLEYBALL

HOOP (NO COURT LINES?)

COURT SURFACE HAS FADED, EDGES ARE CHIPPED

BARRETT PARK
PRESIDENT | ALLSPORT AMERICA
ASBA CERTIFIED COURT BUILDER

925-932-4108 (OFFICE)

First Impressions:

- These tiles were installed 15+ years ago, probably closer to 20. Does anyone know for sure?
 - Just painting Pickle ball lines to existing surface (approx. ~\$1,650)...but the strong recommendation would be to put the new SportGame Pickle ball/Tennis surfacing in, replace/update the basketball hoops, replace footings/set new sleeves for tennis posts.
 - These tiles would need to be replaced, concrete prepped underneath, footings for poles removed and redone, and new surfacing installed.
 - This would offer Tennis, Pickle ball, Volleyball (if we use the taller poles), and two Basketball hoops with lines for all of these sports. Currently has Shuffle Board – Is that a desire with a new court?
 - Barrett is working on a quote for us. FYI - Mono County and Mono County Public Works are signed up with Sourcewell and are already making purchases off the Sourcewell Purchasing Agreement.
-
