Our home has been under renovation and within our plans, we prioritized the room and play area for our pets. For proper ventilation and to assure the dogs are comfortable in not of cold weather, their room includes a new HVAC and heating system, 4 ceiling fans, new insulation and drywall, lights, windows and new front door. This was designed for our pets comfort and safety. This is where the dogs will sleep and where they will be if we are not home.

PLEASE PROVIDE: Maps, drawings, illustrations and narrative that may be useful for staff review.

Outside they have a play area that has
shading, grass, fencing and a water misting
cooling system. This gives them room to
run around, play and its also an area
where we can spend time with them. We
will also have a professional kennel system
for them for when we need to clean other
areas.
