## STAFF REPORT

June 5, 2013

**TO:** Mono LAFCO

**FROM:** Brent Calloway, Associate Analyst

**RE:** Municipal Service Reviews and Sphere of Influence  
Build-Out & Census Data Map Update

### **Recommendations**

Informational Only

### **Background**

At the March 20, 2013 meeting, the commission briefly reviewed the sphere of influence maps and recommendations located within the Municipal Service Reviews of all the special districts in the county. A majority of the districts require no modifications to the sphere recommendations and no or very minor modifications to correct mapping errors. In addition to any minor map corrections requested by the commission, all of the maps in the Municipal Service Review documents will be re-formatted and census data and build-out potential maps will be updated for all of the documents. As similar map products are concurrently being developed for the Mono County General Plan Update, a master GIS model is being developed to streamline these map updates.

A demonstration of the GIS progress for the Tri-Valley Special Districts will be presented to the commission.
